

Price list for not subsidised Post Mortem Examinations of farmed animals at the RVC-FAPD (from Nov 24)

PM charge stated below includes gross post mortem examination only. Any additional testing e.g. microbiology, virology, parasitology, histopathology etc will incur an additional charge. Recommended additional testing (and additional charges) will be discussed and agreed with the submitting Private Veterinary Surgeon following gross post mortem examination. We regret that there is no carcass collection service available for non-surveillance post mortem examinations.
